

LEADER IN RADIATION SOLUTIONS

For 30 years now, TRAD is recognized worldwide for providing innovative solutions to **measure, predict** and **minimize** radiation effects on space components, materials and systems

CLASS 3+ "SPACE READY COTS"

- ✓ Immediate availability
- ✓ High reliability (Resistance to radiation, heavy ions and destructive elements)
- ✓ Traceability
- ✓ Fair Price
- ✓ EAR99
- ✓ Advanced technology

MODELING AND RADIATION SIMULATION SOFTWARE

OMERE

The freeware dedicated to space environment and radiation effects on electronic devices

FASTRAD[®]

The reference software for advanced radiation dose analysis and shielding optimization

RAYXPERT[®]

The only dose rate calculation software that combines both an easy user interface and the high level precision of the Monte Carlo method
